

MULTI INDEX 30

Investment plans Switzerland, Plan No. 49
 Monthly Report, 01.04.2024

Investment Goal

The "Multi Index 30" investment plan consists of the "FORTUNA Multi INDEX 30" umbrella fund. This umbrella fund invests worldwide in index funds. All index funds replicate a large liquid index as exactly as possible by investing in all securities contained in that index. The benchmark of the umbrella fund is based on the weighting of the single indices. Once a month the umbrella fund is rebalanced to realign the percentage weighting of the index funds. With a target equity component of 30%, the investment approach is balanced and favours CHF. The objective of this strategy is to grow assets over the long term while keeping price fluctuations to a relatively low level.
